

# About us

## Buttercup Barn

We are situated on the outskirts of the village of Balcombe in West Sussex. Its two converted barns compliment the countryside setting in which it stands; boasting picturesque views across working farmland.

The larger of the two barns provides a large, fully equipped learning environment for our pre-schoolers, who are aged between 2 ¼ and 5 years. Whilst the smaller barn provides three separate, inter-connected learning environments for our toddlers aged between 1 ¼ and 2 ¼ years, and a bright, open learning space for our babies, who flourish in a nurturing, home from home environment.

Both barns open out onto our outdoor learning environments, giving a courtyard feel and are equipped with a large sandpit, climbing apparatus and digging area. The recent acquisition of a wooded area, along with a gated pond area, will provide our children with the opportunity to widen their experiences and knowledge of nature first hand.
